# welcome from

## FIRST CLASS CATTLE MARKETING

Welcome to the 28th Annual Checkers Simmental Sale. Also new this year is a group of elite Angus consignments that will sell under the "Chess Masters" name. It is with great pleasure that we are once again working with this awesome group of Simmental consignors on this very prestigious event. I would also like to welcome all our new Angus consignors. Once again the sale will take place at the Olds Regional exhibition. We are very excited that again this year we have an excellent mix of Red, Black and Fullblood Simmental cattle, as well as Angus for your appraisal.

On offer this year is a group of cattle, although smaller in numbers, lacks absolutely nothing in overall quality. The group of cattle that is for sale is extremely deep so please analyze your catalogue with great detail. The bred heifers on offer are the right kind. Powerful in their type, but yet still feminine enough to give them that look and eye appeal we are all searching for. They will lay down this new year and have a calf to maximize your return on investment.

The Checkers sale is notorious for having bred heifers sold here pay for themselves on the first calf. The heifer calves on offer are possibly as good of set as you will find anywhere in the breed. They have the ability to not only become show females and be successfully campaigned, but also be taken home and bred to a bull of your choice to maximize your return on investment. The picks on offer are nothing short of fantastic. The bull on offer is as good of Angus bull in the country, he's made a lot of friends in the past couple years so please pay attention to him. Anytime someone offers a pick of the herd such as these three, you know that their very best is not being held back whatsoever. There is also some very intriguing frozen lots for your appraisal.

Please plan on joining us December 17th in Olds, AB. If for any reason you are unable to attend the sale do not hesitate to give anyone of the First Class team a call as we will all be very familiar with the offering and will be more than happy to assist you in purchasing your next Simmental or angus female or herdsire. Mark Shologan with DLMS will also be on site if internet bidding is what you prefer. I hope everyone has a great fall and I hope to see you in Olds.

Sincerely,  
**Darnell Fornwald, First Class Cattle Marketing**

2022  
CHECKERS & CHESS CONSIGNORS

# Downhill Simmentals

Pick of any Downhill female

sample of past Downhill sale females

WHEATLAND FRONT RUNNER

SAMPLE OF A FRONT RUNNER DAUGHTER

CMS STRUTTER 126J

## **1** Choice of *any Downhill Female* at Downhill Simmentals

Its great to be back at Checkers 2022. Once again, I am offering a pick of any female walking on my farm. The females start calving at Christmas and will be done by mid-February. Calves at foot will be sired by my herd battery of Wheatland Fronrunner, KWA Black Mountain 279G, ZSL Mr Kassian 205J, my junior red blaze bull and CMS Strutter 126J, the \$42,000 high selling black blaze Walk This Way son who was just named Grand Champion Simmental Bull at Ag Ex in Brandon.

The pick should be chosen by July 31, 2023 and whether you take a pair or a bred heifer you won't go wrong with this opportunity.

consigned by Downhill Simmentals

Circle G Red Zeola 1106J

This is a female that should never be leaving Circle G as this kind is extremely rare. Zeola is unmatched in terms of dimension, rib shape, fleshing ability and power yet is attractive with an abundance of maternal strength in her pedigree. 1106J is super sound, has an impressive set of epds and her udder quality will be first rate. Her sire, Aztec, was a dark red, perfect footed son of the elite Sage cow. The set of Aztec daughters are flat out awesome as one would expect with the Sage influence combined with the maternal strength of the Circle G cowherd. Zeola's dam is a model daughter of the \$26,000 Circle G Cash bull that has bred so well...her first calf, a Red Heat son, was a 2021 bull sale high seller to South Seven Farms. Zeola 1106J has huge production potential and is the kind that will raise herd bulls. Her mother, grandmother and great grandmother will all have feature bulls in the Circle G Bull Sale February 18, 2023. Zeola carries service to a very good son of Red Heat from an excellent Venom daughter that was retained for a herd sire. Zeola has received rave reviews from visitors and I get excited when thinking what this female could accomplish for her new owners. HOMO POLLED

**Reserving the right to one future flush.**  
Exposed to CIRCLE G HOOPER 99H from March 30 to June 20, 2022. Ultrasounded 5+ months on September 25.

Circle G Cordelia 1105J

WFL Granite 8G - Sire

Cordelia catches your eye with her attractive color, style and presence and holds your attention with her quality. She is feminine, square hiped and sound with the depth of flank, rib shape and capacity we all strive to have in our females. Her sire, Granite, was the high selling black bull at the 2020 WFL sale and is backed by great genetics. Stacking Loaded Up 1119Y with the WFL Licious and the Circle G Cordelia cow families makes for a highly maternal combination without compromising performance. Cordelia's dam produced the high selling black bull in the 2020 Circle G bull sale to Colter Ellefson and he has bred well. The Cordelia cow family is one of the most cherished at Circle G as their production level is stellar.

1105J carries early service to a new herd sire that should deliver excellent results. He is a son of the highly regarded Skors High Roller 34C bull and his full sister topped a WLB sale at \$18,000...he bred well, held his condition and looks great.

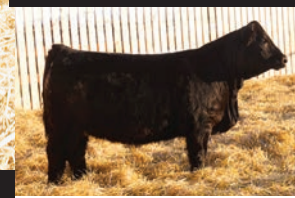

Cordelia 1105J has the look of a powerful breeding piece and has caught the attention of many.

Exposed to MCR MRJAX 104A 139J from March 30 to July 4, 2022. Observed breeding April 8 Ultrasounded 5+ months on September 25.

BRSF BS Lady Broker 47J

Full Sibling to 47J

HOMOZYGOUS POLLED, HETEROZYGOUS BLACK. It is quite hard for myself to fully understand why we would sell a heifer this stunning, with all the attributes one strives to find. "47J" seems to be one with the fully loaded package that we all seem to seek in the cattle industry. She has a little bit of that flashiness, but with a great deal of structure and capacity. When we decided to pick sale heifers, it was a simple task to decide on this black female that we have been so fond of. We needed females that show and represent our program to the fullest. It's with no surprise that her dam "31C" cranked out another bone chilling female who continues to make them fancy and broody. If you take a peak far into her pedigree, you'll notice the first black simmental cow we every purchased, "Miss DN Country 120K," who was purchased out of Checkers back in 2002! A full sib sold a few years back to the Przekop family of Lake Bottom Cattle Company, who had the same eye appeal and attributes as "Lady Broker". Bred to an early service to our new herd-sire RF Jaguar, her calf should more than pay for herself in the first year! Proven cow family, Homozygous Polled!

Exposed to RF Jaguar 054H from March 22, to July 1. Observed bred March 27, Due January 3, 2023. Vet Checked Safe, 6.5 months on September 29.

BRSF Lady Avalanche 20J

RF Jaguar 054H - Service Sire

HOMOZYGOUS POLLED. I'm not too sure if I'll be able to find a heifer to replace "20J" very easily! She is a beautiful female that I would classify as "Purdy," and has an abundance of qualities that will stop you in your tracks. Dark red, as broody as you can build them, and likely will outproduce anyone in the "Avalanche" cow family if I would have to guess. She's moderate framed, big ribbed female, that has the potential to make those big-time bull calves or front-end replacement females. She will be the first female to sell from our proven herd sire, "RST Freadey," who has surpassed all expectations that we had of him. "20J" quickly rose to be the best red heifer from start to finish and her full sib fits the part just as well at home in the bull pen. Big time production female from the top of the pen at blush, that is sure to drop a gorgeous utter! A female who you can build a herd around, and wish you had 100 of! Bred to our IPU Bentley son from Ranciers, let her go to work!

Exposed to RF Jaguar 054H from March 22, to July 1. Vet Checked Safe, 5 months on September 29. Due Early February.

YR Red Primadonna 121J

CEN Red Fuel - Service Sire

Primadonna is a powerhouse of a bred. Loads of rib, top and hip. Her maternal brother was our highest weaning weighted red bull and her Aunt had the heaviest black bull at over 1000 lbs Sept 1. Her Milhouse dam is a tank just like her daughter and her production is everything I could ask for. The Casanova daughters are doing a great job in the herd and have nice udders. If you're looking for a herd addition that will bring in those big calves in the fall, take serious note to Primadonna. Cow family that has been doing well in herds either in the bull or female divisions.

Exposed to CEN Red Fuel 482F from March 19 to June 1, 2022.

Ultrasounded June 10. 60-65 days

HPR Prim N Proper 144J

Unlimited 401G - Sire

Prim n Proper has the complete look. Her extension through her front end leads into a deep full rib and lots of top. Prim has got to be one of the most eye appealing females I have raised, and the close to perfect blaze just adds to her package. Her dam is a moderate framed female that weaned off a bull calf Sept 1 at just shy of 1000 lbs. 144J has the power and performance in her makeup. She is setting down a beautiful udder just like her dams. Prim has a maternal sister that has been doing a great job at the Willow Creek operation. The Unlimited daughters are set to calve this season and are very impressive in their overall shape and type. 144J is bred to our proven heifer bull CEN Red Fuel 482F.

Exposed to CEN Red Fuel 482F from March 19 to June 10, 2022.

Ultrasounded June 10. 60-65 days

MAD 107J

107J is an attractive good looking female with a good hair coat. She has great calving ease. We are expecting big things from her in the future and bred to **Heat Wave** for early January calving.

consigned by Yellow Rose Cattle Co.

This "Razor" daughter has got to be one of my favourites ever. She has such a sweet disposition. Her length of body is unreal, with that sweet extension from her shoulders to head. The "Razor" sons are the heavy weights in the bull pen for another year. He passes on such ideal calves, and the daughters getting ready to calve are extremely exciting. If your looking for a junior prospect to show or have that standout cow have a look here.

LFE RS Lewis 329F - Sire

YR Floral 212K

Proud to be offering our first daughter from our new herd bull Deeg Wallstreet 70H (Tycoon son). He's has done an amazing job with his first calf crop, with many daughters being kept and bulls in the sale pen. This young lady's dam is a young Iginla daughter, which just like her half-sisters, raise the "right kind" every year. She is a very broody, wide based heifer that has the makings to be a high producer for the new owners. A great investment opportunity.

Deeg Wallstreet 70H - Sire

JRCC Daisy Duke 211K

If you are looking for a heifer with power and class in her genetics, this is one to take a look at. Daisy Duke is a big girl with having a wide back, square quarter and deep in her rib. What is so eye appealing about her is her front end, which is very feminine. Daisy Duke has many power cows in her blood line, which has been proven by her dam and sisters. Her sire Bomb showed his power this year in the high weaning weights in our bull pen. Raising the calves of tomorrow, Daisy Duke is the one you have to look hard at.

HPR Red Jackie 231K

Jackie is from 2 black parents and has a proven pedigree to back her. Clean fronted, wide based and angular thru her lines. These Unlimited daughters are turning into beautiful cows and we are excited to get the first daughters calved out. Jackie's dam was purchased from Westway Farms in SimPower and she just knocks it out of the park. Jackie will turn into a cow that will produce you a top end bull or females. She will not disappoint the new owner.

First Class Mickey 211K

211K is younger but very powerful 3/4 blood heifer that came in dam from the meadow acres dispersal. Just an end of March baby, she could be the highest weight per day of age calf in the entire offering. She has a tremendous amount of depth and thickness, and with the new change to the pedigrees coming up she will raise you the purebred bulls you're looking for.

Here is a really well made, fancy type of heifer sired by Epic. This female is put together almost perfectly! She's got the top and belly that we need but is also perfect footed and really nice in her front end. If looking for a show prospect look no further.

First Class Pocahontas 231K

231K is most definitely the power female of the group. She is absolutely massive in every way and loaded with volume. Top it off with a tremendous amount of hair, a good foot and smooth front end she is destined for great things. Here's a heifer that will have lots of friends sale day!

Red Magic was purchased out of the Checkers Sale with Swan Lake Farms for \$30,000. She has since went on and proved herself as one of the very best Simmental females in the industry. I have had the opportunity to see some progeny out in the country from very pleased embryo customers and this cow does not disappoint. She has proven herself both a bull and female maker and we are very excited for this young cows future in the breed.

Flush to be done at a Bow Valley Genetics. Guaranteed 6 freezable embryos with no cap. Buyer to pay all flushing costs. Ready to flush immediately.

The Kraken is one of the very exciting up and coming young herd sires in the Black Angus breed. He had a very successful show career and was a many time division champion at shows all across the country. He is incredibly stout and big middled but still exhibits that smooth, long front end with a very pleasing head. He can get out and move flawlessly and stands atop a perfectly made foot. His dam needs no introduction in the Black Angus breed as she is the dam of the great Boss Lake Bonafide 722E who is doing great things in the Lewis Farms, Miller Wilson Angus and Boss Lake Genetics herds respectively. Being sired by the great S A V President he is as royally bred as they come.

Southern Princess 76J

This deep bodied Tonic heifer is representative of many of the tonic females. Deep bodied, long, correct in structure, solid footed. Confirmed bred.

Approximately 60 to 70days on July 29th with a bull calf being the opinion. Serviced naturally to Greenwood Attractive JJP 12J.

consigned by Southern Angus Farm

Southern ZARA 5J

This is a powerful soggy heifer that can be bred a number of ways and still be profitable. You simply can't make a mistake with one like her! Serviced naturally to Greenwood Attractive JJP 12J. Opinion is a heifer calf. Confirmed 60 to 70 days on July 29th

Barstow Bankroll B73 - Sire

Good View Blackbonnie 5K

Goodview Blackbonnie 5K is the Granddaughter of our BlackBonnie 3D Dam. This Dam has produced top end bull calves for us each year. Strategically we felt best to use Firebrand to further performance of the cow family. 5K carries herself on a great set of feet, and clean structured walk. The width of back is an eye-catching quality that hides the true depth of rib.

Certainly, a female that showcases herself in the flesh. Having the backing of a proven dam, and well known sire, we feel this heifer can be bred in a lot of different ways to suit the style of the buyer, and will not disappoint

Firebrand 6068 - Sire

Good View Pride 10K

Goodview Pride 10K is exactly what we dreamt of and hoped for when we introduced her dam into our herd. Stamped with a deep rib and wide back, that is founded by her dam's sire, and arguably the most well-known Brooking Bull, Banknote 4040 him self, we felt that if length of spine could be added it would be a breeding for the ages. With Bar-E-L Hammertime 95H making his entrance into our herd in 2022, the results and expectations were immediately noted.

The pairing speaks for itself when you see this heifer from any angle, and stand out with a elegant front end and neck extension. 10K possesses a calm mind set and showcases herself with a confident and smooth stride. Females like this that are backed by proven and historical genetics are the kind one can build their herd from. Its because of this that we felt it hard to allow for this offering but are proud to showcase our own herd and efforts to the Angus community knowing she will have an immediate impact on anyone's herd she finds.

Bank Note 4040 - Grand Sire

Sandy Hills Miss 200K

An easy favorite among the Angus division we have to offer out of the \$60,000 LFE 807G bull. This heifer has been a favorite since she was born. She just hit the ground knowing she was going to be in the top of the pen. She has got it all going for her.

La Conquista Beauty Resource 210 ET

La Conquista Ranches is striving to produce genetics with form, function and performance in mind. And its with great honours that we introduce you La Conquista Beauty Resource 210K. As we develop our foundation program, we have searched for the greatest maternal genetics that will build a strong herd, and this breeding is an example of what we are striving for. This young heifer was born January 29th, product of our embryo program. Her Dam is Coleman Beauty 8313, out of the great TLRA Beauty 5R, an influential dam recognized for her maternal contributions in many herds across North America. While looking for a sire that would complement this breeding, SAV Resource 1441 was our choice, being a son of the iconic SAV Blackcap May 4136 who needs no introduction in the breed, generating more than 8.0 million in progeny. We are passionate about our program and are proud to offer this young heifer calf that has a world of future in any program, please stop by and take a look at her, bid with confidence you won't be disappointed.

Retaining one flush at buyers convenience and sellers expense.

# Terms and conditions

---

**TERMS & CONDITIONS** The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. First Class Cattle Marketing reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, First Class Cattle Marketing reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, First Class Cattle Marketing and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

**EXCHANGE** Foreign exchange rates will be announced at the beginning of the sale.

**BID** Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES** In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASERS RISK** Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

**SHIPPING** Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

**GUARANTEE** All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

**HEALTH** It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. First Class Cattle Marketing assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

**First Class Cattle Marketing IS AGENT ONLY** It is clearly understood that First Class Cattle Marketing acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. First Class Cattle Marketing does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. First Class Cattle Marketing Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
