

Camrose Country
Classic 12.04.2019
eighth annual sale

WELCOME FROM BOHRSON MARKETING SERVICES

The Camrose Country Classic has annually produced many of the powerful females in the entire breed and the 2019 edition has an incredible offering on hand. This impressive line-up consists of 5 progressive breeders that have dug deep into the replacement open and bred heifer pens to showcase the strength of each respected program. We are humbled to be able to work with the progressive breeders in this sale and highly impressed with the quality that is put forward once again this year.

The Maxwell family is one of the highest respected programs in all of Canada and are synonymous with excellent Simmental genetics that work under every environment. Their cattle have succeeded throughout the country as well as into the US and Mexico, a true testament of a thriving program. WJ Simmentals has an awesome offering of fullblood and black bred heifers on offer and they represent one of the deepest herd bull pens in the industry. The Stimulus and Total Value daughters a prime example of the WJ program along with a Top Notch female that is as powerful as you can make them. South Seven has been breeding Simmentals for nearly 30 years and it reflects the strong bull sale they hold every spring and select female that you will find in this sale. The 5 reds and 1 full fleckvieh are prime examples of the strong program they have built and the power females they can produce. We welcome Tri-K to this prestigious sale and they are 100% committed and bringing the cream of the crop and their very best. They have selected a feature black along with a pair of reds and fullbloods to properly represent their herd and we know you will be as impressed as we are. Rancier Farms continues to grow their deep program that is heavily built on foundation cow families. This offering of 6 bred heifers represents many of their strongest cow families that will allow you to invest with confidence.

Return on investment has proven strong in this sale with repeat clients annually returning because of the past successful purchases. We encourage you to join us in Camrose on Wednesday December 4th for an impressive set of bred and open females from 5 excellent programs. Come for the deep set of cattle and stay for the hospitality, the breeders behind this sale are amongst the very best in the business and thrive on their customers success.

Sincerely,
The Bohrson Marketing Team

The Maxwell Family - Viking, AB
Glen & Leigh Maxwell - 780.385.5552
Kevin & Pru Maxwell - 780.385.5625
Reece Maxwell - 780.385.5394

Welcome from the Maxwell families to the seventh Camrose Country Classic Female sale. Maxwell Simmentals is a family-run farm, consisting of 350 purebred cows of which 150 are Fullblood, 120 are Red factor and 80 are Black. We have been breeding Simmental cattle since 1972. We are extremely happy with the consistency in type and quality of the set of cattle we have on offer. The bred heifers are all very similar in type and bred to easy-calving, industry leading herd sires. The heifer calves are from the top end of our replacement pen. We are very proud of our cow herd and the successful bull sale we host each year, which a large percentage of our bulls going to repeat buyers. We look forward to joining the other great breeders to assemble a set of Simmental females that will be some of the finest sold this fall. If you have any questions about our sale offering or our program in general, please feel free to call or stop in. We always have time to talk cattle! From all of us, we wish you a Merry Christmas and all the very best in the New Year!

AI Bred to Vision on April 14/19.

Here is a heifer that you won't want to miss sale day. She is a granddaughter of the great Envy 218Z cow. 2F is a big bodied heifer that is still very angular and feminine. She definitely catches your attention when you walk into the pen. 2F's dam is a very nice uddered, easy keeping young cow who we purchased from the Sim Power sale.

AI Bred to Circle G Cash 1C on Mar. 31/19

With a little restructuring of the Camrose Country Classic this year, we dug a little deeper in heifer pen. This may very well be the strongest set of bred heifers that we have offered in a while. This wide topped, big barreled, super broody heifer should be a herd bull producer. We used Circle G Cash bull, a Red Mountain son, on heifers last year and they were born easy with lots of vigor.

AI Bred to Red Heat on April 17/19.

Another deep, angular heifer that is setting up a nice udder. Check out the cow power in this heifer's pedigree. There is a good chance if we sent you through our cow herd and said "pick out four cows that you can take home" this heifer's mother would be one of them. Kora is one of the top heifers we have ever offered. With her power and pedigree, she should become a feature cow in her new owners' herd.

AI Bred to High Voltage on April 2

53F is a powerful female with a great presence to her. She is a very easy doing female with excellent feet and legs. A daughter of the popular Captain Morgan bull who has bred so consistent for us. Again, another heifer from a very productive cow family. 53F's grandmother, 243M always weaned a good one. Her first attempt was the Pashmenia 403P cow that was purchased from the 2005 Camrose Country Classic by Labatte Simmentals. The 403P might have as much progeny in the breed as any other cow.

Captain Morgan 11Z - Sire

The mating between Blue Print and 862U has worked very well for us. 101F is a very stylish, well balanced, awesome temperament heifer that should make a great mother cow. We have a full sister to 101F that just weaned an Imax bull calf that looks really good. Applecross Simmentals also have a full brother to 101F that was one of our high selling bulls in 2017 that they are very happy with. To top it off we have 2 Avalanche daughters from 862U that are very productive. Look for an exciting polled calf from 101F when she calves.

AI Bred to Beef Maker on March 31/19.

This big bodied, well balanced heifer is really nicely made in every way. She is very wide topped and deep bodied yet she is very angular and broody. 105F's dame is a big bodied, high capacity, dark red cow with a very nice udder. Matrix has developed into a very impressive, heavily muscled beef bull who stamps his offspring very consistently. They are long bodied, have lots of middle, and good footed, with great hair coats and a gentle disposition. Sounds like the perfect bull, well in our world he is very close to the perfect bull.

We all read these foot notes, and one line that you hear a lot is 'we sure shouldn't be selling this one.' Well here is a heifer put together pretty darn good, a pedigree that is full of some of the breeds great genetics. The cow family behind this heifer is as good as we have in our full blood division. We feel this heifer has a lot of potential, one we should be keeping to raise herd bulls.

Bar KR Avalanche 52X - Sire

Byron Johnson & Family - Amisk, AB
Byron - 780-856-2175

Hello and welcome to this year's Camrose Classic. They say change is inevitable and with writing this we wish to send the best of wishes to South Holden Simmentals as well as Skor Simmentals as they both are leaving the Simmental Breed and will surely be missed. We would also like to welcome Rancier Farms and Tri K Cattle as they will be great additions to our sale. As always we have selected heifer's right out of the top of the pen. This year's consignments are sired by our walking bulls RF/Rust Stimulus 610D and LRX Total Value 163C. Both have bred beyond our expectations and we are extremely happy to be sharing these genetics with the breed. If you are in the area please feel free to stop for a beverage and a tour of the cattle, or feel free to call we will be happy to answer any questions you may have. Thank you for attending the sale.

Byron, Bernice and Wyatt

As purebred breeders we strive to build a program around good honest cow families. WJS 823F comes from one of these. Her grandmother XXX 871 is still producing quality at 13yrs of age. Three of her daughters have gone into our herd, and her last four heifers including this one have been sold through this sale. Fertility, longevity and quality are just a few words to describe this bloodline. With females like this it is easy to sell with confidence and know WJS 823F will go on to be a front end cow in any herd.

Another Stimulus daughter that will catch your attention. When we saw Stimulus while on our hunt for a new black herd bull we couldn't help but admire his foot quality and leg structure, two traits that are very important to us. With the maternal side of Stimulus being the Flirt cow family deciding we need to own him was an easy decision to make. 826F is a ¼ sister to 823f and she is also backed by a cow that has longevity, excellent feet and still an awesome udder again at 13.

Welcome to the eighth annual Camrose Classic female sale. We have been breeding simmental cattle for nearly thirty years and our numbers are at a level where expansion is not in the picture. Therefore we allowed Brohson Marketing to select from the top end of the herd. All are backed by proven cow families and should become productive females. The females are under a total herd health program and given ivomec before the sale. The breds their first shot of scourguard. We feel fortunate to sell with some of the finest breeders in the industry and look forward to you joining us on December 4th. Feel free to call or drop by prior to the sale.

PE to South Holden Festus 15F from Apr. 13 - JUNE 1/19.
Observed bred on April 16/19
A bred heifer whose dam is also the mother to Escalade, the sire of the three open heifers. Her first calf sold as a bred to McIntosh Livestock, second a open to 4C Cattle Company, third was Escalade and now this bred. This years calf is a full brother to Escalade in the bull pen. The sire Sonny is a super sound and has exceeded our expectations. She's dark red, tons of hair, deep bodied and all on a moderate frame. Most exciting part is whose she's bred to, Festus a Prime Beef son. He ranks above average in 12 of the 13 EPD's. A real curve bender.

This open heifer comes from one of our most consistent cow families in our herd. She goes back to "Melody" who's pedigree is seen throughout our program. Her dam STU 5Z is writing her own chapter. All six of her calves have either been retained or sold for breeding. At last year's Classic a Westcott bred from her sold to Century Simmentals and the resulting bull calf is a definite keeper. The consistency continues.

A open heifer sired by Escalade a Westcott son that sold to H BAR M Land and Cattle but were very fortunate enough to buy an interest back into. Escalade's dam was purchased at Checkers where we thought she stood out and continues to five years later. Genny's dam is a blazed faced Wheaty daughter with a square tight udder, a real strength he past on to his daughters. The resulting heifer combines the strength of both pedigrees.

One of my favorite Escalade replacement heifers that has a little more Fleck influence. She's deep, loose hided and weighed 840lbs at weaning with no creep. The consistency of all the Escalade heifer calves is what really impresses me and what Daryl echoed when he walked though the pasture. We had nineteen heifer calves from him with an average birth weight of 88lbs.

AI Bred to WLB Bounty Hunter 365C on March 27/19. Safe PE to KKH Specialist from April 5 to June 1/19

We start out our offering with a solid cobra female we are pretty high on. There is so much to like with this heifer, clean fronted, deep bodied and setting up and nice udder. Her dam is a strong cow from Skors whose first calf raised one of the top bulls in our 2020 sale bull pen. Predictable and proven pedigree on both sides. An early mating to Bounty Hunter will compliment this heifer very nicely.

AI Bred to Circle G Cash 1C on March 27/19. Safe PE to KKH Specialist from April 5 to June 1/19 Right from the top of our Reds comes this long bodied Carisma daughter. 124F comes from a dandy of a Chevalier female. The Chevalier daughters are some of the best uddered cows on the farm and boy can they produce! Dark red, big ribbed this heifer is easy to like. Only because we have a full sibling in the replacement pen does this heifer get to leave the farm. Early breeding to Circle G Cash makes for an intriguing twist on things but also makes it that much harder to let her go. We have used Cash semen for two years before it went public and have been extremely impressed with the results. The resulting calf from this mating having an outcross pedigree might be something to watch for. I would be hoping for a bull calf...

Sweet heart of a heifer that puts everything together and is the exact females we strive to produce. So much body, a touch of extra muscling, easy doing and loads of hair with a great temperament. She stood out alongside her dam all summer. The matrix sons have caused a bit of stir the last couple years but now we are seeing the females leave there mark. The matrix mommas can PRODUCE. Visitors are blown away with their depth of body, udder and foot quality, they just have the look and the best part is they pass it down to their offspring. This girl is exactly what I had in mind when crossing Sleep Easy on the Matrix females. Cool pedigree and dark red, this one will raise herdbulls. You can sleep easy owning this one.

We are excited to join this strong group of breeders to welcome you to the 8th annual Camrose Country Classic Sale. Since day one, we have been dedicated to building a program around superior cow families with a focus on udders, feet, and high volume females that have the ability to produce high quality calves with performance. The breds selling here are from the heart of our program and are all bred early to AI sires and ultrasounded safe to that service. If you have any questions about our offering or our program please let us know. We look forward to visiting with you at the sale and if you are in the area we would love to show you the sale heifers, their dams and their brothers in the bull pen.

AI Bred to WS Proclamation on Mar 22/19. Safe to AI date
 Flirt 820F is a heifer that should have had a halter on her, taken to some shows and collected some banners. The reason she didn't is because we never intended to sell her, but we are going to be excited to see what she will do for her new owners. She's soggy made, big barreled, proud fronted, and has that perfect blaze. Her dam is a beautiful uddered, awesome footed, productive cow and goes back to one of our most prolific and productive donors, 37U. A full sister to her dam was a high seller to Hudson Pines in New York out of the Rust Mountain View female sale in North Dakota. Her sire, Erixon Relentless, was a high seller to Deeg Simmentals and has left a strong set of both sons and daughters. Early service to the exciting new sire, Proclamation, that has a very high probability of being a heifer calf according to the ultrasound.

AI Bred to WHL Gold Key 1619D on Mar 22/19. Safe to AI date Bombshell 826F is as soggy and powerful as you can make one yet is still feminine and broody. We teamed up with Canadian Donors to purchase her dam and she was a \$37,000 high seller in the Indian River Sale that day and has gone on to be an awesome uddered, very productive donor cow. The mating to Westcott really clicked and a full sister heifer calf will sell in Friday Night Lights. We are extremely happy with our first set of milking daughters by Westcott and they are extremely productive young females. The early mating to Gold Key has the potential to make an extremely profitable mating.

AI Bred to WS Proclamation on Mar 22/19. Safe to AI date First Class 817F is an extremely classy made, long bodied, bold ribbed female. The Boone Pickens calves were popular last fall and they add an extra splash of style without sacrificing any power or muscle. The bottom side of the pedigree adds cow power with the 1Y donor cow. She has a long list of accomplishments including sons and daughters being in the Rust Champion Denver Pens and long list of daughters working in many great herds all around Canada and the US. Another early service to the exciting new sire, Proclamation.

AI Bred to WHL Gold Key 1619D on April 14/19. Safe to AI On A Mission 836F is an extremely long bodied female backed by a great uddered, big bodied dam. Her dam was a successful show heifer for Cole McMahon. Cole also showed a full sister to 462B and she was a many time champion for him including Supreme Champion at the Calgary Stampede Summer Synergy show. Sired by RF Stimulus, that was a high seller to WJ Simmentals and Hughalta Farms and is doing a great job siring high performance sons, but we think his real mark will be made in the daughters he leaves. Due mid January to Gold Key.

AI Bred to WHL Gold Key 1619D on March 25/19. Safe to AI Covergirl 835F is another stylish Stepping Stone daughter that is angular and big ribbed. Her dam is one of our favorite young cows and the bottom side of her pedigree is filled with generations of some prominent, high producing females. An early service Gold Key, who is siring calving ease and performance all in one package.

RDD 25Y - Grandam

Terms & Conditions

TERMS: The terms of the sale are cash, cheque, and wire transfers, payable at par at the sale location unless satisfactory payment arrangements have been made prior to the sale with seller, buyer and Bohrsen Marketing Services. Bohrsen Marketing Services reserves the right to require a certified cheque as settlement before releasing any sale cattle. Payment in full must be made before cattle can be released and shipped. Exchange rates will be announced sale day and the sale will be held in Canadian funds.

BIDDING: All animals to sell through the sale must be sold by auction with each animal selling to the highest bidder. Private sales will not be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved in the dispute. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid and the auctioneer's decision will be final.

ANNOUNCEMENTS: Any announcement from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

LIABILITIES: All persons attend the sale at their own risk.

CERTIFICATE OF REGISTRY: A registration certificate issued by the applicable breed association and a certificate of registry duly transferred will be furnished to the buyer of each animal after final payment has been made.

PREGNANCY INFORMATION: All bred females have been pregnancy examined by an accredited veterinarian, who has provided the seller with an estimated length of gestation. The estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service. Bohrsen Marketing Services will provide supplement sheets with breeding services provided for the purchaser.

HEALTH: All sale animals have met all necessary health requirements and it is the buyer's responsibility and expense to determine health requirements for importing any animal into his province or state. Bohrsen Marketing Services assume no responsibility for the health status of any animal in the sale.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold.

SHIPPING: Shipping of cattle, semen and/or embryos are the responsibility and expense of the purchaser. Purchasers are requested to provide shipping instructions at settlement on sale day.

INSURANCE: We strongly recommend insurances for full value on all purchases.

ACCIDENTS: Every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

INFORMATION SUPPLIED: The information contained in this catalogue is believed to be true and accurate. The seller has provided the information to Bohrsen Marketing Services and they assume no responsibility if the information supplied is not accurate.
